

Douglas-fir Flooring

- We are proud to offer a diverse range of Douglas-fir flooring. We have a solution for all your wood flooring needs, whether it is classic solid, engineered or FSC-Certified.
- Our solid Douglas-fir flooring comes standard $\frac{3}{4}$ " x 4 $\frac{1}{2}$ " and ranges from 5-10' in length. Each piece is hand selected for premium quality and consistency of grain; offering a warm rich cognac patina with natural sophistication.
- Our new engineered Douglas-fir floor maintains the natural and distinct beauty of Douglas-fir yet offers more versatility for those areas where solid wood is impractical. Available in both Standard and Enviro Collections as pre-finished or unfinished.
- Enviro Collection flooring is FSC Certified allowing you to reduce your environmental footprint while maintaining the look and colour unique to Douglas-fir.
- Finish your floor with our OLI-NATURA line of oil and wax finishes. Made in Europe with natural vegetable oils, OLI-NATURA finishes enhance the natural beauty of your floor.

Standard Collection

Classic Heart

A clear consistent look with a tight vertical grain. A Cut Above!

New Fir

A clear coarse grain with occasional knots, for a fresh contemporary look.

New

Engineered

Providing you with pre-finished ease & installation flexibility. Available in Standard & Enviro Collections.

Enviro Collection

FSC-Recycled

A floor seasoned with history, various grain patterns and unique features.
*Milled from laminated beams

FSC-Appearance

A warm look with a touch of rustic charm, tight to medium vertical grain, tight knots, sap streaking.
