

Solid Sawn Flooring By Vintage

Vintage is proud to introduce its revolutionary Solid Sawn construction in a complete line of exotic woods. Due to their unique characteristics and density, by nature, exotic hardwoods are inherently unstable and tend to produce gaps in the colder months of the year. Our Solid Sawn construction manipulates these characteristics to offer more stability. Compared to other floor manufacturers who only warranty their stability at a relative humidity of 45-55%, we guarantee that your Solid Sawn exotic wood floor will not cup or shrink, providing you keep your humidity level between 30-80% relative humidity.

SOLID SAWN

Product Specifications

Product Type:	Structured Solid Sawn
Product Width:	3/4" x 3 1/4", 4", 5" not all species available in all sizes
Product Grade:	Estate
Product Construction:	3 ply, Solid Sawn
Face Thickness:	4.2 mm Solid Species
Core Layer:	9 mm Solid Finger Core – Same Species or Alike
Back Layer:	4.5 mm Solid Finger Core – Same Species or Alike Aluminum Oxide (Armour-Kote®) Top Coat
Installation Method:	Nail, Glue or Float
Coating Type:	25% Low Gloss. High Gloss Available by Special Order
Structural Warranty:	Lifetime Structural Warranty
Lifetime Stability Warranty:	Relative humidity must be maintained between 30-80%
Residential Warranty:	25-year Wear Warranty
Commercial Warranty:	3-year Limited Warranty

4.2 mm Solid Exotic Species

9 mm Lumber Core that is placed perpendicular for added strength and stability

4.5 mm Multi Strip laminating back
