

Specifications: Engineered Douglas-fir Flooring

Product	Engineered Classic Fir	
Species	<i>Pseudotsuga menziesii</i>	
Grain Pattern	Clear tight, vertical grain	
Color Tones	Initially a light brown this floor develops a consistent, golden cognac color; unique only to Douglas-fir.	
Product Description	Classic Douglas-fir is made without compromise for the fir aficionado. This exquisite material is selectively harvested from the coast of British Columbia. We use only sap-restricted lumber to ensure that this floor has a consistent and bold, uniform look. Sapwood is the lighter yellow colored streaking common to fir. The combination of a wider plank, long lengths and tight consistent grain create a fir floor like no other. With a 4mm wear layer of tight grain Douglas-fir over a multi-ply hardwood substrate, our engineered Douglas-fir combines the best of classic elegance and new-world technology.	
Finish	UV Modified Oil. Finish is spot repairable.	
Millwork	Engineered single-strip, micro-beveled edge, end-matched.	
Dimensions	Standard dimensions: 5/8" thick X 5¼" face width X random solid lengths 12" to 48" Lengths up to 70" available upon request.	
Wear Layer Thickness	4 mm	
Density/Hardness	Hardness rating of 710 Janka (wear layer)	
Core	Multi-ply hardwood.	
Packaging	Boxed, 22 ft ² /box.	
Lead Time	6 to 8 weeks.	
Recommendations	Suitable for a wide variety of installations, including glue or float over concrete slab, below grade and/or over radiant heat. Install per NWFA guidelines.	
Other	Available in unfinished square edged.	
About These Specs	This specification sheet is designed to give general information about our products. The specifications are subject to change and products are limited to material availability. Please contact us directly for the availability of this product and the particular specifications needed for your project. Detailed specifications will be confirmed in writing.	
Notes	* The product pictures represent the look of the floor and not the actual engineered flooring.
